DETAILED ACTION

Inventorship

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Allowable Subject Matter

Claims 1-11 are allowed. The following is an examiner's statement of reasons for allowance:

The Examiner considered Patent Numbers US 6,179,110 B1 by Ohkawa et al and 5,577,589 by Garcia Tinoco to be the prior art most closely related to the Applicant's claimed invention. The bank note discriminating apparatus of said '110 patent incorporates a single rotator 41 that either allows a document to pass through it along a passageway, or rotates to create a blockage of the document. Said '589 patent discloses a document handler that incorporates a single shutter 5 that operates in a

similar fashion. In contrast the said patents, the Applicant's independent claim 1 includes "a plurality of selectors" that bar the passage of any documents by forming a "blocking" within a passageway.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
